

Round Table Lunch

CLINICAL TRIALS IN AUSTRALIA

Friday, November 8th, 2019
11 am to 1 pm in Stuttgart

Australia is ranked in the top tier of international clinical trial activity and is an ideal market for testing innovative therapeutics and medical devices. While in Germany for BioEurope, Dr. David Lloyd would also like to take the opportunity to share his insights about the Australian clinical trials sector and the broader clinical trials landscape with biotechnology, medical device and pharmaceutical companies.

The round table lunch is hosted by BioRegio STERN, together with Austrade – the Australian Trade and Investment Commission.

Round Table Lunch

Venue:
Das Gutbrod
Friedrichstraße 10 / 1. Stock
70174 Stuttgart

Dr. David Lloyd is former long-term chair of the Pharmaceuticals Industry Council Research & Development Taskforce, the peak body for Australia's pharmaceutical and biotechnology industries. He is also a former member of the Federal Government Clinical Trials Action Group representing the pharmaceutical industry and provides advice to the Australian federal and state governments in medical research matters. He is currently a member of the Department of Health Early Phase Oversight Committee. David is also Founder and Managing Director of an Australian CRO, Southern Star Research, and has over 30 years research experience working in academia, pharmaceutical companies and contract research organisations.
